Instructions

As you know the start of canoeing/kayaking will take place at Limassol Marina. Limassol Marina, hosting the event, has requested that we communicate the below procedure to avoid delays and confusion during the launching of your crafts prior to the start.

You are requested to enter the Marina from the West entrance just in front of the Marina show rooms and ESSO petrol station. Once you enter you will take a right turn and park your car and trailer in the boatyard area of the Marina.

Attendants from Limassol Marina will then call one by one the cars to move from the boatyard area to the slipway which is a few meters away.

Once the crafts are launched you will either park your car back in the boatyard area or drive to N.O.A. where you can pick up your crafts after the finish.

The competitors once their craft is launched should move away from the launching area, to give space for the next craft and move towards the starting area and in front of the Police/Custom building to wait for their class start procedure.
